SinoCleansky

Want a Jumbo Tube Cylinder for Specialty Gases?

We are coming!

Elaborate Inner Polishing

Specialty Gas Jumbo Tube Container

Medium: NF3, HCl, N2O, SF6, CF4, SiH4

Features & Technologies

- Mirror polish technology
- Inert passive film process
- Multiple purging cycles
- Helium leak inspection
- Design for 6N+ gases
- 20+ years service life

Benefits:

- Ultra-low leakage & stable ultra-high gas purity
- Primary requirement for semiconductor manufacturing
- Large gas storage capacity for continuous supply with fewer cylinders
- Optimized comprehensive gas supply cost
- Upgraded safety performance & easier on-site operation
- Modular skid-mounted design, cross-border transport certified
- ISO / TPED / DOT certifications
- Skid Container (MEGC) & Trailer

Spot Stocks !

Item	Spec	Item	Spec
Working Pressure	16.6Mpa	Wall thick	13.7mm
Water Capacitiy	1095L	Length	5400mm(20ft)
Material	4130X	Working Temperature	-40°~60°

Volume estimates and actual volume will differ based on actual constituents of the gas
